

CDC Budget Overview

Fiscal Year (FY) 2024 President's Budget Request: \$11.581 billion

The total FY 2024 request for CDC funding is \$11.581 billion in discretionary budget authority, Prevention and Public Health Funds (PPHF), and PHS Evaluation Transfers. This is an increase of \$2.397 billion over the FY 2023 enacted level.

FY 2024 BUDGET REQUEST

Bolsters U.S. capacity for emergency response to health threats

Provides training, data gathering and analyses, and prevention and laboratory services that Americans depend on for healthy communities

Helps families cope with public health challenges including those stemming from COVID-19, and poor mental health, suicide, Adverse Childhood Experiences, opioid addiction, and violence

Strengthens programs to protect communities against preventable, transmissible diseases such as measles and influenza

Expands initiatives for better access to nutrition, physical activity, and protection from environmental hazards

CDC MAKES AN IMPACT

CDC-trained disease detectives investigated more than **6,000** emergency outbreaks since 2005 globally. CDC strengthens global public health security systems by closing gaps in preparedness and addressing health security challenges to keep Americans safe.

CDC built a new electronic pathway for COVID laboratory-based diagnostic tests that has handled over **934,000,000** diagnostic test reports, at times averaging over **1,500,000** per day.

The Breast and Cervical Cancer Early Detection Program could serve an additional **142,000** people with new investments, resulting in **2,500** additional cancers and cancerous lesions detected.

Through December 2022, **922,000,000** COVID-19 vaccine doses have been delivered in the United States.

Efforts support global health security activities in **110** countries worldwide, including **50** new countries receiving direct CDC support as a result of establishing new offices in 2022.
