

Join the Epidemic Intelligence Service (EIS) for a Life-Changing Career Experience

Train as a disease detective to investigate
and respond to health threats around the world

EIS OFFICERS

- Receive hands-on experience as they complete a 2-year public health service fellowship
- Identify and respond to health threats using applied epidemiology
- Gain practical skills in communications, project management, partnership development, and more to prepare them for future leadership
- Work within multidisciplinary teams while building a long-lasting public health network

WHO CAN APPLY?

- Physicians
- Veterinarians
- Nurses
- Doctoral-level scientists with background in public health or one of its disciplines
- Other healthcare professionals (e.g. dentists, pharmacists)

Applications open annually in the spring
www.cdc.gov/eis/application/

“EIS was absolutely amazing.
It prepared me for all of the twists and
turns my career has taken.
More importantly, it is where I fell in love
with public health and its power
to change the world!”

— Richard Besser, MD

President and CEO, Robert Wood Johnson Foundation
CDC Acting Director (2009), EIS Class of 1991

All Applicants must meet degree,
licensing, and experience requirements
listed on our website.
