## Adherence Issues

| Issue | Plan | Support types needed | Supporter names |         |
|-------|------|----------------------|-----------------|---------|
|       |      |                      |                 | 17. CAL |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
|       |      |                      |                 |         |
