What is OneLab REACH?

A customized learning management system for laboratory professionals and the testing community.

"REACH" is an acronym for Rapid Education and Capacity-building Hub. OneLab REACH provides training resources that cover essential topics, including **preparedness, quality, safety, core science, and informatics**.
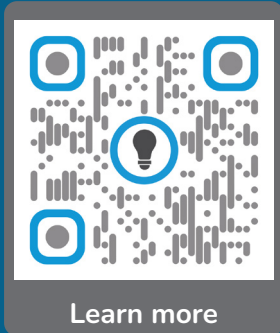

Free eLearning courses

Downloadable job aids and resources

Continuing education credits (including P.A.C.E.®)

OneLab REACH is part of CDC OneLab. CDC developed OneLab in 2021 to unite clinical and public health laboratory professionals and the testing community to improve training for public health emergencies.
