

Train as a Disease Detective. Become a Laboratory Leader.

Applying to become a member of
CDC's Laboratory Leadership Service (LLS)

LLS fellows train to be
leaders in public health.

LLS is a
2-year fellowship
for PhD laboratory
scientists seeking careers
in public health.

LLS is a
competency-based,
service-learning fellowship.

91% experiential

9% didactic

LLS fellows train at public health laboratories around the country.

Nearly 94% of
LLS fellows remain
in public health.

LLS Fellows are CDC Disease Detectives.
