### Directions

Please complete the following survey with only **documented, non-estimated** data for all infants born between *January 1, 2011 and December 31, 2011*. Any comments and/or caveats about the reported data can be entered in the Comments section at the end of the survey. ### Survey Notes

- The survey is divided into three parts, which each have several different sections. These include Part 1 (Hearing Screening, Diagnostic, and Early Intervention), Part 2 (Type and Severity), and Part 3 (Demographics). Part 3 can only be completed after Parts 1 and 2 have been submitted.
- Data cannot be manually entered into fields highlighted in **yellow**. The totals for these yellow fields will be automatically calculated based on the data entered into the non-highlighted fields. These calculated values will appear in the yellow boxes after selecting the "Calculate Totals" button near the top of each survey page.
- To navigate through the survey use the menu bar located near the top of each survey page and click on the desired section (e.g., Diagnostic).

**Burden Notice:** The public reporting burden of this collection of information is estimated to average 4 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
