\*Data were reported by jurisdictions, only if applicable. Jurisdictions that conduct and report two-stage screening results (inpatient & outpatient screen) completed these fields.

†Passed initial/No outpatient refers to infants who passed the initial screening and, did not receive an outpatient screening, missed an outpatient screening or refused an outpatient screening.

§No initial/Passed outpatient refers to infants who did not receive an initial screening, missed an initial screening, or refused an initial screening, and passed the outpatient screening.

¶Passed initial/Passed outpatient refers to infants who passed the initial screening and passed the outpatient screening.

\*\*Referred initial/Passed outpatient refers to infants who did not pass the initial screening and passed the outpatient screening.

††Referred initial/No outpatient refers to infants who did not pass the initial screening and did not receive an outpatient screening, missed an outpatient screening, or refused an outpatient screening.

§§No initial/Referred outpatient refers to infants who did not receive an initial screening, missed an initial screening, or refused an initial screening, and did not pass the outpatient screening.

¶¶Passed initial/Referred outpatient refers to infants who passed the initial screening and did not pass the outpatient screening.

\*\*\*Referred initial/Referred outpatient refers to infants who did not pass the initial screening and did not pass the outpatient screening.

†††Referred initial/straight to diagnostic evaluation refers to infants who did not pass the initial screening and were referred directly for diagnostic evaluation.

An example of an outpatient screening is a hearing screening that is performed after an infant is discharged from a birthing facility (e.g., the infant is no longer a patient in the facility where they were born).
