--- Data not available

<sup>1</sup>NHIS collects data on "all persons" in a family (Family Core survey component).

<sup>2</sup>Data shown are for "sample adults" only. From each family in the NHIS, one "sample adult" aged 18 years or more is randomly selected (Sample Adult survey component).

<sup>3</sup>Data shown are for "sample child" only. From each family in the NHIS, one "sample child" aged less than 18 years is randomly selected (Sample Child survey component).

<sup>4</sup>For 2007-2018 NHIS, only Sample Adult and Sample Child participants are included in the NCHS-HUD linkage.

<sup>5</sup>For 1999-2006 NHIS, eligibility for linkage is based upon not refusing to provide 9-digit Social Security Number (SSN) and having sufficient personally identifiable information (PII).

<sup>6</sup>For 2007-2018 NHIS, eligibility for linkage is based upon providing the last four digits of SSN or an affirmative response to the follow-up question to allow linkage without SSN and providing sufficient PII for linkage.

<sup>7</sup>This group includes linkage-eligible survey participants who linked to HUD administrative records at any time during the linkage interval.

<sup>8</sup>This percentage is calculated by dividing the number of linkage-eligible survey participants by the number of participants in the total sample.

<sup>9</sup>This percentage is calculated by dividing the number of linked survey participants by the total number of linkage-eligible participants.

<sup>10</sup>This percentage is calculated by dividing the number of linkage-eligible sample adult survey participants by the number of total sample adult participants.

<sup>11</sup>This percentage is calculated by dividing the number of linked sample adult survey participants by the total number of linkage-eligible sample adult participants.

<sup>12</sup>This percentage is calculated by dividing the number of linkage-eligible sample child survey participants by the number of total sample child participants.

<sup>13</sup>This percentage is calculated by dividing the number of linked sample child survey participants by the total number of linkage-eligible sample child participants.

--- Data not available

<sup>1</sup>This group includes only NHANES participants who were examined in the Mobile Examination Center (MEC).

<sup>2</sup>For 1999-2008 NHANES, eligibility for linkage is based upon not refusing to provide Social Security Number (SSN) and providing sufficient personally identifiable information (PII).

<sup>3</sup>For 2009-2018 NHANES, eligibility for linkage was defined as providing an affirmative response to the linkage consent question and providing sufficient PII.

<sup>4</sup>This group includes linkage-eligible survey participants who linked to HUD administrative records at any time during the linkage interval (1999-2018).

<sup>5</sup>This percentage is calculated by dividing the number of linkage-eligible survey participants by the number of participants in the total sample.

<sup>6</sup>This percentage is calculated by dividing the number of linked survey participants by the total number of linkage-eligible participants.

<sup>7</sup>This percentage is calculated by dividing the number of linkage-eligible survey participants who were examined in the MEC by the number of MEC participants in the total sample.

<sup>8</sup>This percentage is calculated by dividing the number of linked MEC participants by the total number of linkage-eligible MEC participants.
