

# FETAL ERRATA June 13, 2012 rev.

Page#	Content to be Corrected	Corrections
21	Changed code and explanation on 2 <sup>nd</sup>	Corrected page attached
27	Added Q500-Q529, Section K, for females Only	Corrected page attached
Appendix D	Several codes omitted - Entire table reformatted	Appendix attached
Appendix H	Added terms: Abortifacient Use, Fetacidal Injection, Self-Induced abortion, and Termination	Corrected pages attached

Intentionally Left Blank.

**G. FORMAT**

**Conditions reported in 18a**

Enter the codes for entries in 18a in the order the entries are reported, proceeding from the entry reported uppermost in 18a from left to right, if there is more than one entry on the same line. If the entries are numbered, code in numeric order.

**Connecting Terms**

**“Due to” written in or implied in Items 18a and 18b**

When the certifier has stated that one condition was due to another or has used another connecting term that implies a due to relationship between conditions in items 18a and 18b, take into consideration the position of the term in 18a/18b and code the entry following the “written-in due to” directly preceding the term.

- a) The following connecting terms must be “written in” and are interpreted as meaning “due to” when the entity immediately preceding and following these terms is a disease condition, nature of injury or an external cause:

after	incident to	received in
arising in or during	incurred after	resulting from
as (a) complication of	incurred during	resulting when
as a result of	incurred in	secondary to (2°)
because of	incurred when	subsequent to
caused by	induced by	sustained as
complication(s) of	occurred after	sustained by
during	occurred during	sustained during
etiology	occurred in	sustained in
following	occurred when	sustained when
for	occurred while	sustained while
from	origin	
in	received from	

**EXAMPLES:**

18a. INITIATING CAUSE/CONDITION

**(AMONG THE CHOICES BELOW, PLEASE SELECT THE ONE WHICH MOST LIKELY BEGAN THE SEQUENCE OF EVENTS RESULTING IN THE DEATH OF THE FETUS)**

Other Fetal Conditions/Disorders

(Specify) Anoxia and hemorrhage caused by hemolytic disease of fetus

**Code 18a (Part 1) to P209 P559 P509**

Code 18a (Part 1) P209, Anoxia, fetal, fetus, P559, Disease, hemolytic (fetus) (newborn) and P509, Hemorrhage, fetal, fetus. Code the Hemolytic disease of fetus immediately preceding the hemorrhage.

18a. INITIATING CAUSE/CONDITION

Maternal Conditions/Diseases

(Specify) Fetal cardiac failure due to maternal polyhydramnios

**Code 18a (Part 1) P013 P298**

Code 18a (Part 1) P013, Polyhydramnios, affecting fetus or newborn and P298, Failure, cardiac, fetal. Code maternal polyhydramnios as the first entry in 18a (Part I), directly preceding the fetal cardiac failure.

When one of the above terms is the first entry in 18b, indicating the entry following the term on the above list is a continuation of 18a, code in 18a. Take into consideration the position of the term in 18a and code the entry following the “written-in due to” in 18b directly preceding the term in 18a.

## H. SCREENING/TESTS RESULTS

When a statement is reported on the Fetal Death Report indicating a screening or diagnostic test was performed and the results of the test are not reported, do not enter a code for the screening/test. Tests are used for diagnostic purposes and not considered a diagnosis unless the results are reported. If results are reported, code as indexed.

### EXAMPLES

Diagnostic imaging of the kidney performed

Liver function studies

Screened for tuberculosis

Do not enter a code for a condition when the results are reported as “negative”.

### EXAMPLES:

Negative for tuberculosis

Tested negative for HIV

Tested positive for tuberculosis P370. Indexed under Tuberculosis, congenital

## I. INCLUSION OF ADDITIONAL INFORMATION (AI) TO FETAL DEATH REPORTS

Code supplemental information when it modifies or supplements data on the original Fetal Death Report as follows:

1. When additional information (AI) **states** the initiating cause of a **specified disease or condition in 18a** (Part 1), code the additional information (AI) preceding the specified disease.
2. When additional information (AI) **modifies** a specified disease or condition, use the AI and code the specified disease where reported.
3. When there is a stated or implied complication of surgery and the additional information indicates the condition for which the surgery was performed, code this condition as follows:
  - a) If the surgical procedure was performed on the mother, code the condition for which the surgical procedure was performed following the P006 (the code used for the fetus and newborn affected by a surgical procedure on the mother).

- b) If the surgical procedure was performed on the fetus, refer to your immediate supervisor for a code assignment.
- 4. When the additional information (AI) **states** a certain condition is the **initiating cause** of death, **code** this as the first condition in 18a (Part 1).
- 5. When any morphological type of neoplasm is reported in 18a (Part 1) with no mention of the “site” and additional information specifies a site, code the specified site only on the line where the morphological type is reported.
- 6. When additional information states the primary site of a malignant neoplasm of the fetus, enter the code preceding where information concerning the neoplasm is reported.
- 7. When the additional information does not modify a condition on the report, or does not state that this condition is the initiating cause, code the AI as the last condition(s) in 18b (Part II).

**J. AMENDED REPORTS**

When an “Amended Fetal Death Report” is submitted, code the conditions reported on the amended report only.

**K. SEX LIMITATIONS**

Certain categories in ICD-10 are limited to one sex:

<u>For Males Only</u>	<u>For Females Only</u>
B260	C51-C579
C60-C63	D06
D074-D076	D070-D073
D176	D25-D28
D29	D390-D391
D40	D397-D399
Q53-Q55	P546
Q98	Q500-Q529
	Q960-Q962
	Q964-Q979

## APPENDIX D

### ICD-10 Codes Valid for Causes of Fetal Death

## APPENDIX H

### Terms Interpreted as “Induced abortions” and Not Coded as Fetal Death

---

1. Abortifacient Use
2. Consensual abortion
3. Convenience
4. Demand abortion
5. Dilation and curettage (D & C)
6. Dilation and curettage for termination of pregnancy psychiatric indications (D & C for T. O. P.)
7. Dilation and evacuation (D & E)
8. Dilatation and suction curettage (D & SC)
9. Early uterine evacuation
10. Elective abortion (E. A.)
11. Elective termination
12. Endometrial aspiration
13. Extra-amniotic injection
14. Fetacidal Injection
15. Hypersalineization
16. Hysterotomy
17. Hysterectomy for termination of pregnancy (hysterectomy)
18. Iatrogenic interruptions of pregnancy (iatrogenic)
19. Inconvenience
20. Indicated abortion social economic reason
21. Induced abortion
22. Induced by instrumentation prior to admission
23. Induced preg. termination
24. Induced termination of pregnancy (ITOP)
25. Infective abortion\*
26. Intentional termination of pregnancy
27. Interrupted first trimester
28. Interrupted pregnancy
29. Intra-amniotic injection
30. Intra-amniotic instillation
31. Intra-uterine prostaglandin instillation
32. Intra-uterine saline instillation
33. KCI injection
34. Laminaria
35. Legal abortion
36. Legally induced abortion
37. Maternal ingestion of abortifacient agent (misoprostol)
38. Medically induced abortion
39. Medically indicated termination of pregnancy
40. Medical interruption of pregnancy
41. Medical termination of pregnancy
42. Menstrual aspiration

## APPENDIX H

### Terms Interpreted as “Induced abortions” and Not Coded as Fetal Death

---

43. Menstrual extraction
44. Menstrual induction
45. Menstrual regulation
46. Oxytocin induction
47. Pitocin induction
48. Prophylactic abortion
49. Prostaglandin injection
50. Prostaglandin amniocentesis
51. Requested abortion
52. Saline induction (saline) (salting out procedure) (salineization)
53. Saline amniocentesis
54. Saline amnio-infusion
55. Saline amniotic fluid exchange
56. Self-Induced Abortion
57. Septic abortion \*
58. Septic criminal abortion
59. Sharp curettage
60. Sodium chloride injection
61. Sociologic termination
62. Suction abortion
63. Suction curettage (S. & C.)
64. Suction D & C
65. Sulting out procedure
66. Surgical abortion (S. A.)
67. Surgical curettage
68. Surgical excision of pregnancy
69. Surgical interruption of pregnancy
70. Termination
71. Termination of fetal life
72. Termination of pregnancy
73. Therapeutic abortion (T. A., ther ab, Tab)
74. Therapeutic interruption (T. I.)
75. Undesired pregnancy
76. Vacuum aspiration
77. Vacuum extraction
78. Vacuum induction
79. Vaginal suppository prostaglandin
80. Voluntary abortion (V. A. or V. I. A.)
81. Voluntary interruption of pregnancy
82. Voluntary termination pregnancy (VTP)

\* Must have a statement that a D and C was performed. If no statement that a D and C was performed, consider as a spontaneous abortion/fetal death.
