Worktable 210R. Death rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 5-year age groups, race, and sex: United States, 2007

[Rates per 100,000 population in specified group. Rates based on populations estimated as of July 1, 2007. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. In 2007, multiple-race data were reported by California, Connecticut, Delaware, District of Columbia, Florida, Hawaii, Idaho, Kansas, Maine, Michigan, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming. The multiple-race data for these areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other areas; see http://www.cdc.gov/nchs and refer to "Detailed technical notes to the United States 2007 data_mortality." For explanation of asterisks preceding cause-of-death codes, see http://www.cdc.gov/nchs and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable 210R. Death rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 5-year age groups, race, and sex: United States, 2007

[Rates per 100,000 population in specified group. Rates based on populations estimated as of July 1, 2007. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. In 2007, multiple-race data were reported by California, Connecticut, Delaware, District of Columbia, Florida, Hawaii, Idaho, Kansas, Maine, Michigan, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming. The multiple-race data for these areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other areas; see http://www.cdc.gov/nchs and refer to "Detailed technical notes to the United States 2007 data₁mortality." For explanation of asterisks preceding cause-of-death codes, see http://www.cdc.gov/nchs and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable 210R. Death rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 5-year age groups, race, and sex: United States, 2007

[Rates per 100,000 population in specified group. Rates based on populations estimated as of July 1, 2007. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. In 2007, multiple-race data were reported by California, Connecticut, Delaware, District of Columbia, Florida, Hawaii, Idaho, Kansas, Maine, Michigan, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming. The multiple-race data for these areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other areas; see http://www.cdc.gov/nchs and refer to "Detailed technical notes to the United States 2007 data₁mortality." For explanation of asterisks preceding cause-of-death codes, see http://www.cdc.gov/nchs and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable 210R. Death rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 5-year age groups, race, and sex: United States, 2007

[Rates per 100,000 population in specified group. Rates based on populations estimated as of July 1, 2007. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. In 2007, multiple-race data were reported by California, Connecticut, Delaware, District of Columbia, Florida, Hawaii, Idaho, Kansas, Maine, Michigan, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming. The multiple-race data for these areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other areas; see http://www.cdc.gov/nchs and refer to "Detailed technical notes to the United States 2007 data₁mortality." For explanation of asterisks preceding cause-of-death codes, see http://www.cdc.gov/nchs and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable 210R. Death rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 5-year age groups, race, and sex: United States, 2007

[Rates per 100,000 population in specified group. Rates based on populations estimated as of July 1, 2007. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. In 2007, multiple-race data were reported by California, Connecticut, Delaware, District of Columbia, Florida, Hawaii, Idaho, Kansas, Maine, Michigan, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming. The multiple-race data for these areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other areas; see http://www.cdc.gov/nchs and refer to "Detailed technical notes to the United States 2007 data₁mortality." For explanation of asterisks preceding cause-of-death codes, see http://www.cdc.gov/nchs and refer to "Detailed technical notes to the United States 2007 data - mortality"]
