¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

Cause of death (based on the International Classification of Diseases, Tenth Revision), Hispanic origin, race, sex, and age Number deaths Rate All races and origins, female, 5-14 years All races and origins, female, 5-14 years 11.2 3.258 100.0 11.2 Accidents (unintentional injuries) (V01-X59, Y85-Y86) 579 25.6 2.0 11.2 Accidents (unintentional injuries) (V01-X59, Y85-Y86) 579 2.58 10.0 11.2 Congenital malformations, deformations and chromosomal abnormalities (Q00-Q39) 143 6.3 0.7 Assault (homicide) ('U01-V02, X85-Y09, Y87.1) 102 4.5 0.5 Chronic lower respiratory diseases (J40-J47) 69 3.1 0.3 Influenza and pneumonia (J09-J18) 42 1.9 0.2 In situ neoplasms, benign neoplasms and neoplasms of uncertain or unknown 39 1.7 0.2 20 Crebrovascular diseases (I60-I69) 39 1.7 0.2 21 Anemias (D50-D64) 19 0.8 * 31 Diabetes mellitus (E10-E14) 12 0.5 * 41 Certatin conditions originating in the perinatal period (P00-			na mopuno origi	Percent	lineateej

¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

* Figure does not meet standards of reliability or precision

¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

		na i nopanio origi	Percent

* Figure does not meet standards of reliability or precision

¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

	Cause of death (based on the International Classification of Diseases,		Percent of total	
Rank ¹	Tenth Revision), Hispanic origin, race, sex, and age	Number	deaths	Rate

* Figure does not meet standards of reliability or precision

¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

	n-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race ar		Percent

¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

Rank ¹	Cause of death (based on the <i>International Classification of Diseases, Tenth Revision</i>), Hispanic origin, race, sex, and age	Percent of total

¹ Rank based on number of deaths

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

	Cause of death (based on the International Classification of Diseases,	Percent of total		
Rank ¹	Tenth Revision), Hispanic origin, race, sex, and age	Number	deaths	Rate
	Non-Hispanic, Asian or Pacific Islander, female, 65 years and over			
	All causes	24,885	100.0	2,071.8
