(Rates are live births per 1,000 women 15-44 years in specified group. Live birth order refers to number of children born alive to mother. Figures for live-birth order not stated are distributed. Population enumerated as of April 1 for census years and estimated as of July 1 for all other years. Beginning in 1970, excludes births to non-residents of the United States; see Technical Appendix. Rates for 1991-1999 have been revised using population estimates based on the 2000 census and may differ from rates previously published.
