Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. *For definition of areas see Technical Appendix*]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 94 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1980—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

# NOTES

## Occurrence and residence allocation

In contrast with the method of allocating deaths to place of residence for each of the 50 States and the District of Columbia, residence data for the Commonwealth of Puerto Rico include only those deaths to residents of Puerto Rico occurring in Puerto Rico. Deaths to nonresidents occurring in the Commonwealth are included in occurrence mortality statistics, but are excluded from residence mortality statistics. Deaths to residents of Puerto Rico occurring elsewhere are excluded. The same qualification applies to resident deaths in the Virgin Islands and Guam. Exclusion of these nonresident deaths from resident mortality statistics began in 1970. Before 1970 resident mortality statistics for Puerto Rico included all deaths occurring in Puerto Rico, with deaths of nonresidents of Puerto Rico assigned to place of death.

Data are shown by both place of occurrence and place of residence in Puerto Rico for the primary geographic subdivision, the "municipio," and in the Virgin Islands for St. Croix Island and for St. John and St. Thomas Islands. Deaths by place of residence are shown for municipios only and not for urban places for Puerto Rico; however, for the Virgin Islands they are shown for Charlotte Amalie, the only urban area having a population of 10,000 or more.

## Race

Deaths are not shown by race for Puerto Rico and Guam; they are classified as white and all other for the Virgin Islands.

## Fetal deaths

Fetal deaths for Puerto Rico were published in the *Vital Statistics of the United States, Volume II, Mortality, Part B,* for the first time, beginning with 1976. Puerto Rico requires the reporting of fetal deaths with gestation period of over 5 months. All tables showing fetal deaths include only those with stated or presumed gestational age of 20 weeks or more.
