## VOLUME II—MORTALITY

A brief summary of the contents for sections 8 and 9 is listed below for the convenience of the reader. A complete contents page is at the beginning of each section and is identified by a narrow black edge, which can be located easily by fanning the pages. Each section is paged independently, beginning with page 1. Sections 1 through 7, which show data on General Mortality, Infant Mortality, Fetal Mortality, Perinatal Deaths, Accident Mortality, Life Tables, and the Technical Appendix, are in Part A of Volume II of *Vital Statistics of the United States, 1980*. Section 7, the Technical Appendix, discusses the factors affecting the collection, classification, and interpretation of the mortality statistics.

**PART B**

Section 8. Geographic Detail for Mortality

Total number of deaths, deaths from selected causes, infant deaths, neonatal deaths, fetal deaths, and selected rates and ratios. Tabulations shown by each State and county, specified urban places, metropolitan and nonmetropolitan counties, population-size groups, and standard metropolitan statistical areas.

Section 9. Puerto Rico, Virgin Islands (U.S.), and Guam

Trend of the crude death rate. Frequency tabulations for most of the characteristics shown in other sections of Volume II.

| 8–9. | Deaths from 34 selected causes: United States, each State and county, population-size groups, metropolitan and nonmetropolitan counties, and specified urban places, 1980 | 488 |

# Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

| Area and race | Total deaths by county of occurrence | Deaths by place of residence | | | Fetal deaths by place of residence |
|---|---|---|---|---|---|
| | | Total deaths | Under 1 year | Under 28 days | |

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980---Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

| Area and race | Total deaths by county of occurrence | Deaths by place of residence | | | Fetal deaths by place of residence |

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1980—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1970 and are incorporated unless otherwise noted. Figures for "Black" are shown separately for those counties and urban places in which the 1970 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

| Area and race | Total deaths by county of occurrence | Deaths by place of residence | | | Fetal deaths by place of residence |
|---|---|---|---|---|---|
| | | Total deaths | Under 1 year | Under 28 days | |

[1] "Districts" shown are election districts, the nearest equivalent to counties.
[2] Includes data for Texarkana, Ark., only.
[3] Previously, fetal deaths occurring in Georgia were reported only to the State and county level. Effective with data year 1980, they are reported in the same detail as for other States.
[4] The cities of Honolulu and Hilo have legally established limits and, therefore, are treated as incorporated places.
[5] Minimum reporting requirements for fetal deaths are assumed to exceed 20 weeks gestation; see Technical Appendix.
[6] Includes data for Bristol, Tenn., only.
[7] Includes data for Texarkana, Tex., only.
[8] On January 1, 1974, Nansemond merged with the independent city of Suffolk.
[9] Independent cities having populations of less than 10,000 according to the 1970 census are Bedford, Buena Vista, Clifton Forge, Emporia, Franklin, Galax, Lexington, Norton, South Boston, Suffolk, and Williamsburg.
[10] Includes data for Bristol, Va., only.
[11] Includes data for Bluefield, W. Va., only.
[#] Classified as urban under special rule; see Technical Appendix.

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1980

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1980—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1980—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1980—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1980—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1980—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1980—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1980—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1970. For definition of areas see Technical Appendix]

[1] Previously, fetal deaths occurring in Georgia were reported only to the State and county level. Effective with data year 1980, they are reported in the same detail as for other States.
[2] County equivalents.
[3] Minimum reporting requirements for fetal deaths are assumed to exceed 20 weeks gestation; see Technical Appendix.

Table 8-3. Deaths by 10-Year Age Groups, Race, and Sex, for Metropolitan and Nonmetropolitan Counties: United States and Each State, 1980
