NHSN Healthcare Personnel COVID-19 Vaccination Module: Groups and Supergroups - Viewing and Uploading COVID-19 Vaccination Reporting Pathway .CSV Data Files
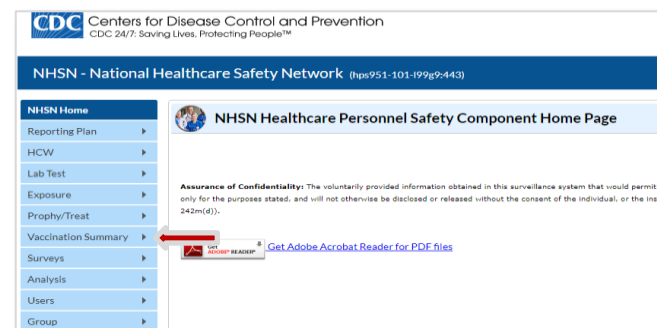

Description

As part of CDC's ongoing COVID-19 response, non-long-term care facilities (non-LTCFs) enrolled in the National Healthcare Safety Network (NHSN) Healthcare Personnel Safety (HPS) Component have the ability to report healthcare personnel (HCP) COVID-19 vaccination data through the HPS Component. Group and supergroup users can import data on behalf of their member facilities who report through the NHSN HCP COVID-19 Vaccination Module. The purpose of this guidance document is to provide important information and instructions for how groups and supergroups can import .CSV files and view summary data in the NHSN HCP COVID-19 Vaccination Module.

Please note that a facility should decide which of the groups that it has granted access to NHSN for the purpose of viewing their data will upload their data as these same groups will also have access to upload data on their behalf using the .CSV bulk upload process. If data have been uploaded into NHSN for a facility by one group or supergroup via the .CSV bulk upload, these data can be overwritten by a second group uploading data for the facility at a later time or date. Therefore, NHSN recommends that facilities only grant access to one group/supergroup to upload data on their behalf. Groups or supergroups can include health departments. It is also important to note that if a facility has entered its own data, it will not be overwritten by a bulk upload by a group/supergroup.

Facilities looking to upload their data by working directly with a vendor will need to work with the vendor directly to provide their OrgID and establish the process. Vendors (e.g., EHR providers, EOC providers, etc.) intending to provide COVID-19 .CSV uploads on behalf of NHSN facilities please submit an inquiry to NHSN@cdc.gov with the title "Vendor Support for NHSN COVID-19 HCP Vaccination Reporting." NHSN will follow up to confirm procedural details as the process may differ by vendor.

Please note: If accessing NHSN through different level of SAMS credentials, the interface will look slightly different as shown here, but all functionality related to COVID-19 data reporting is the same.

2. **Group** – After selecting Define Rights, the Define Rights for the component will be displayed. Under General, there are new Rights for COVID-19 vaccination data. The new Rights allow viewing of COVID-19 Vaccination Module summary data for facilities that are a part of the group. Check "COVID-19 View Data" and "COVID-19 CSV Data Upload". By selecting "COVID-19 CSV Data Upload" the group will have the ability to import .CSV data files for facilities who accept the define rights. Select Save at the bottom of the page to define the additional Rights.

3. **Enter Data** – Using the provided.CSV template for healthcare personnel data, populate each variable with the appropriate data. Multiple facilities (those that are a part of the group and have conferred rights) may be included. A valid facility identifier is required. After entering all data, save each file to upload the .CSV file in NHSN.

For complete information on the variables included on the .CSV template, refer to the table at end of this document ("Table 1: NHSN Non-Long-Term Care Facility Staff COVID-19 Vaccination Data Import File Format"). An example .CSV file that includes test data in required fields is available for download from the NHSN Weekly HCP COVID-19 Vaccination webpage: https://www.cdc.gov/nhsn/hps/weekly-covid-vac/index.html.

5. **View Data** – A message that indicates the upload was successful will be generated. The vaccination module will automatically populate the uploaded data. Users can then select a facility for which data was added to view the record.
If errors are found during upload, please review the alerts and refer to the table at end of this document ("Table 1: NHSN Non-Long-Term Care Facility Staff COVID-19 Vaccination Data Import File Format") for complete information on the variables included on the .CSV template. Questions can be submitted to NHSN@CDC.GOV with "Weekly COVID-19 Reporting CSV upload" in the subject line.

6. **View and Export Line List Data Reports** – Users are encouraged utilize the analysis and reporting functionality built within NHSN to view and export line list data reports for COVID-19 vaccination data for healthcare personnel. For more information, view the Quick Reference Guide on how to modify and export line lists available under the 'Supporting Materials' section of NHSN's Weekly HCP COVID-19 Vaccination webpage: https://www.cdc.gov/nhsn/hps/weekly-covid-vac/index.html.
