Cincinnati, Ohio 45226

Dear Madam or Sir;

I am writing in response to the Proposed Rule on Respiratory Protective Devices (42 CFR PART 84 Fed Register Vol. 59, No 99 pp. 26850-26893).

I am an Infection Control Nurse at a medium size teaching hospital in an area that has a low incidence of Tuberculosis. In the last four years we have seen three (3) cases.

I support the proposed standard to have 3 levels of minimum efficiency performance standards describing the filter elements. The new process will provide a fair and reliable way of evaluating PR use in the future. Please support the proposed standard.

Sincerely,

Kathy A. Miller, R.N., CIC
