Subject MY Mother Working At IBM Owego Has Leukemia

I was told about a study that is going on related to chemical usage, related to Cancer. My mother worked in IBM Owego and was using the same chemicals as were used in Endicott. I wanted to be sure IBM Owego was also being looked at. She is N Stage with Leukemia and getting no assistance from anyone (has medical and Medicare) with her attempts to survive. My (died of Heart Attack), and even my worked in Endicott, I not as long as my parents (moved to We all are concerned for our lives too. Please let us know what is happening with this study.

Thanks. -
