These comments are on behalf of the Western Broome Environmental Stakeholders Coalition (WBESC)

1. We request an extension to the comment period of 90 days to August 29, 2007. There is too much to review effectively in the short time frame.

2. We also request a list of similar report NIOSH has performed. Our group needs to increase it knowledge before commenting on the reort.

Please review these two comments and let me know your reply. We look forward to continuing to work with you.

Yours truly,  
Frank Roma  
Secretary, WBESC
