Subject: Survivor

WTCII - Floor 61 - 9/11 - Marilyn J. Shepard

Numerous health problems ever since: HBP, innsomnia, PTSD, small bronchia filled with debris ever since, 9/11 cough, speaking and singing voice changed (unable to sing & singing was a big part of my life), shortness of breath - never had these health problems before 9/11 - Bellevue Hosp. 9/11 area examined me on 8/12/08 from 8:30 AM - 5:30PM - all records are there. Dr [redacted] knows my case. I am in trouble... NO one from my firm has helped me either. I worked ofr [redacted] from 4 - 14, 2001 to- middle of 7, 2005. I applied for Workers Comp but was ignored. I am tired of not receiving help. I doubt I will. After all, it's been close to 11 years now. I feel forgotten.

Since I live in California and am retired, I have difficulty traveling to the East Coast.

Best Regards,

Marilyn
