

A SOLID WASTE AND LAUNDERING ASSESSMENT OF SELECTED REUSABLE AND DISPOSABLE PRODUCTS

by Jocelyn Mullen
Carl Lehrburger

Report to:
Textile Rental Services Association of America (TRSA)
1130 E. Beach Blvd., Suite B
P.O. Box 1283
Hallandale, FL 33008-1283
and
Institute of Industrial Launderers (IIL)
1730 M St., N.W., Suite 610
Washington, D.C. 20036

Printed on recycled paper

Copies of this report may be obtained from the Textile Rental Services Association of America, the Institute of Industrial Launderers, or from the authors. The authors may be contacted care of Carl Lehrburger at: P.O. Box 998, Great Barrington, MA 01230; or by fax 413/528-2241.

ACKNOWLEDGEMENTS

The authors would like to express their appreciation to Mr. David Dexter of the Institute of Industrial Launderers and Mr. Clifford Weller of the Textile Rental Services Association of America for their valuable guidance and assistance throughout the project.

C. Vaughn Jones contributed valuable work in the area

of uniform laundering analysis, while technical information was researched and compiled by Arnold Mullen. And, finally, the document could not have been created without the graphic art skills of Julie Hodges at Impact Images and the wordprocessing skills of Terry L. Casey and Janette Winkelblech.

CONTENTS

I.	EXECUTIVE SUMMARY	
	A. Abstract	9
	B. Background	9
	C. This Study's Approach	10
	D. Conclusions	11
	RECOMMENDATIONS	14
II.	OVERVIEW: SOLID WASTE AND LAUNDERING ASSESSMENTS	15
	A. Introduction	15
	B. Description of a Solid Waste Assessment	16
	C. Defining the Study Boundaries	16
	D. Methodology of the Present Assessment	16
	1. Solid Waste Assessment	16
	2. Uniform Laundering Assessment	17
	E. Key Assumptions	20
	F. Review of Other Solid Waste and Laundering Assessments	21
III.	BACKGROUND TO THE PRESENT ASSESSMENT	24
	A. Overview: Reusable Textile Industry	24
	B. Overview: Disposables Industry	25
	1. Highlights of the Pulp and Paper Industry	26
	2. Highlights of the Nonwovens Industry	26
	C. Trends in Product Use and Technology	28
	1. Reusable Products	28
	2. Single-use Products	28
IV.	PRODUCT DESCRIPTIONS AND USE PATTERNS	29
	A. Towels	29
	1. Commercial Applications	29
	2. Industrial Applications	30
	B. Napkins	30
	C. Healthcare Gowns	30
	D. Adult Incontinence Care Products	31
	E. Uniforms	31
V.	POSTCONSUMER WASTE GENERATION, PROCESSING, AND DISPOSAL	32
	A. Reusable Products	32
	1. Solid Waste	33
	2. Use of Textiles as Rags	34
	3. Wastewater Treatment	34
	B. Single-use Products	36
	1. Solid Waste	36

C. Comparison of Reusable and Disposable Products	38
1. Commercial Towels	38
2. Industrial Wipers and Towels	38
3. Napkins	38
4. Hospital Gowns	38
5. Adult Incontinence Care Products	38
D. Solid Waste Management Trends	40
E. Sewage Treatment as a Perspective on Textile Laundering	42
VI. COMMERCIAL/INDUSTRIAL VS. HOME LAUNDERING	
A. Laundering Practices	43
B. Water Consumption	44
C. Energy Consumption	44
D. Chemical Consumption	45
E. Economics	45
VII. UNIFORM LAUNDERING COMPARISONS	
A. Water Consumption	46
B. Energy Comparison	46
C. Chemical Consumption	48
D. Environmental Impacts	49
E. Economics	50
VIII. ECONOMIC IMPACTS OF REUSABLE VS. DISPOSABLE PRODUCTS	
A. Reusables	51
1. Costs to the Consumer	51
2. Water Consumption	51
B. Disposables	52
1. Costs to the Consumer	52
2. Hidden Costs	52
C. Economic Comparison of Reusables and Disposables	53
1. Commercial Towels	53
2. Industrial Wipers and Towels	53
3. Napkins	53
4. Hospital Gowns	55
5. Adult Incontinence Care Products	55
