Subject: 128 - Firing Ranges Alert

I have reviewed the NIOSH Alert regarding lead and noise. I would like to point out that this document is depicting photo's and product of a particular corporation. This can be construed as the CDC is supporting this corporation and or that this corporation meets the NIOSH standards and is approved by the CDC.

This corporate name and product can clearly be seen on your cover, the "warning page", and on page 9.

I would suggest that the corporate name and product clearly visible be removed from this publication.

Thanks for your time in this serious matter.
