#### SUPPLEMENTARY INFORMATION:

##### Background

The purpose of this strategic plan is  
to define and prioritize occupational  
safety and health research and  
prevention activities for NIOSH in the  
oil and gas exploration and production  
industry through 2025. This strategic  
plan focuses on conducting priority  
research to prevent injuries, illnesses  
and fatalities to workers employed in  
the onshore, exploration and production  
industry. The plan's research goals are  
organized according to the four areas  
that make up the NIOSH Oil and Gas  
Sector Program: (1) Epidemiology and  
surveillance, (2) exposure assessment,  
(3) control technologies, and (4)  
communications. The plan also includes  
performance measures that describe  
specific research activities that will be  
used to guide research, measure  
progress, and evaluate the success of the  
NIOSH Oil and Gas Sector Program in  
improving safety and health in this  
high-risk industry.
