

You haven't forgotten

**9/11**

*Neither have we.*

Photos courtesy of Getty Images. Photos depict general types of individuals who may be eligible for the World Trade Center Health Program and not actual members.

**Were  
you  
there?**

**9/11 responders and survivors share a common experience** — they were present during the attacks of September 11, 2001, or in the days, weeks, and months after, exposed to the dust and debris.

They continue to have ongoing physical and mental health issues such as asthma, gastroesophageal reflux disease (GERD), post-traumatic stress disorder (PTSD), and cancer.

The **World Trade Center Health Program** provides medical monitoring and treatment for these and other WTC-related conditions at no out-of-pocket cost.

**If you were there, we're here.**
